Lucknow, Uttar Pradesh

Class X (ICSE) – 94.5% 2021

Experience

SRDT Pvt. Ltd. & SRMCEM

Sep. 2025

Full Stack Developer Trainee (Python/Django)

Lucknow, Uttar Pradesh

- Developed backend modules and RESTful APIs using Python and Django for full-stack web applications.
- Worked with MySQL to design and manage relational databases, ensuring efficient data storage and retrieval.
- Collaborated using Git and GitHub for version control, code management, and team-based development workflows.
- Built and tested web application features while following clean coding practices and debugging techniques.

Projects

Blinkit Clone | *React.js, Node.js, Express.js, MySQL, Razorpay* | [GitHub](#) | [Live](#)

- Developed a full-stack grocery delivery web application using React.js, Node.js, Express.js, and MySQL.
- Implemented secure user authentication, shopping cart, order management, and Razorpay payment gateway integration.
- Designed responsive user and admin dashboards with RESTful APIs for efficient product, user, and order management.
- Optimized application performance through efficient database design, reusable components, and responsive UI.

Space Universe | *React.js, Three.js, React Three Fiber, Gemini AI* | [GitHub](#) | [Live](#)

- Built an interactive 3D space exploration platform using React.js, Three.js, and React Three Fiber.
- Integrated Google Gemini AI to provide intelligent space-related information and interactive user assistance.
- Designed responsive interfaces with immersive animations, reusable components, and smooth navigation.
- Optimized performance using Vite, React Router, and modern frontend development practices.

Technical Skills

Languages: Java (Basic-Intermediate), Python (Basic), C (Basic), JavaScript, SQL

Frameworks/Libraries: React.js, Node.js, Express.js

Core Concepts: Object-Oriented Programming (OOP), Data Structures (Basic), REST APIs

Database: MySQL

Developer Tools: Git, GitHub, VS Code, Vite

Certifications

Full Stack Python Internship

Sep. 2025
